*There's a rule at Camp Wannastay that says you can't bring food into your cabin. Malachi's friends have been doing it all summer and haven't gotten caught, so he decided to try it, too. During freetime, he went to the Canteen, stocked up on \_\_\_\_\_, and hid (favorite snack) them under his pillow. Then, he headed off to \_\_\_\_\_. While he was playing (favorite activity) \_\_\_\_\_, he fell and busted his \_\_\_\_\_, so he had to go back to his cabin (same activity) (part of your face) to get cleaned up. When he got there, his bed was completely covered in \_\_\_\_\_. (type of insect) It was so covered in \_\_\_\_\_ that he couldn't even see \_\_\_\_\_ on his pillow. (same insect) (Disney Princess) He really wished he had respected the rules and the people in charge. That night, the same friends who convinced him to sneak food into the cabin decided they were going to sneak out after dark! This time, Malachi decided he was going to respect the rules and the people in charge, even if he was the only one! About \_\_\_\_\_ minutes after his friends snuck out, (number) Chipper came into Malachi's cabin to announce that tonight was the night of the Annual Midnight \_\_\_\_\_ Party! Because Malachi had respected the rules and the people in (favorite food) charge, he got to go! While he was eating \_\_\_\_\_, his friends got scared and (same food) came back to the cabin. They missed out on the \_\_\_\_\_ Party, and they woke up (same food) the next morning covered in poison ivy and \_\_\_\_\_ bites! (type of insect)*
